

Advisor

James Hardy

Executive Vice President and Chief Data Officer, State Street Corporation

James Hardy is an Executive Vice President and Chief Data Officer of State Street Corporation, where he leads a portfolio of regulatory compliance, client lifecycle and data governance and management transformation programs. Previously, James was Chief Operating Officer of State Street Global Markets, the company's investment research and trading business. James has 30 years of business and technology consulting and management experience within the financial industry. He served as Chief Information Officer for Global Markets.

Prior to joining State Street in 2003, James was a senior executive in a financial technology consulting services company where he was responsible for sales and delivery. He also held senior positions at Arthur Andersen Business Consulting and the international systems division of BIS Banking Systems.

James joined the Greater Boston Food Bank's Board of Advisors in 2016.

James holds a Bachelor of Science in Electronic Engineering and Mathematics from the University of Reading, UK and a Master of Business Administration in Finance from New York University Stern School of Business.
