Anita Lane

Vice President, Cognitive Computer Solutions Delivery, Fidelity Investments

Anita Lane is a Vice President of Cognitive Computer Solutions Delivery for Fidelity Investments, where she works to accelerate artificial intelligence adoption and develop AI deployment for broad use. Prior to this role, Anita served as the Director of Program Management at Fidelity Labs working on digital currencies and blockchain. She has worked in a variety of other technology focused capacities at Fidelity since 2007 and prior to her career at Fidelity, worked in technology startups, consulting, and manufacturing companies.

Anita served on The Greater Boston Food Bank's Board of Directors from 2002 to 2007 where she served on the Building Committee that helped determine the strategy and plans for hiring the architects and contractors for The Greater Boston Food Bank's current facility.

Anita holds a Bachelor of Science degree from Purdue University in Industrial Management and a Master's in Business Administration from Rochester Institute of Technology. Anita additionally is a Certified ScrumMaster, Scaled Agile Framework Agilist, and Certified Scrum Product Owner.
